Luurtsema Sales will leave one delivery cart at your location with the first delivery of the season. Use it to collect the plastic pots, trays and baskets. We will pick up the plastics with the next delivery and leave another empty cart. The plastics are returned to our facility where they are sorted, cleaned to be reused or recycled.

Return your plastic containers to us!

All plastic pots and trays returned to this location will be either reused or recycled. All recycled plastics will be ground into raw materials for use in other products.
